ISSUE 01, April, 2024

LAUNCH ISSUE

Editorial Message

In this Launch Issue, we look forward to bringing you stories, reflections, developments and insights from our journey over the past **18 years** with our newsletter, **SPARSH Anubhava**.

In every issue of SPARSH Anubhava, we will introduce you to a few of our stellar teams from each of our units and share inspiring case studies highlighting how we adopt the latest in healthcare technology to deliver excellence in health and people behind the uniforms and roles who transform our patients' lives with their healing touch.

Chairman's Message

Dear Friends,

SPARSH is an ongoing experience of impact, joy and learning.

18 years ago, we commenced as a single-focus Orthopaedic Hospital and within no time we entered the multispecialty segment, by developing our capabilities continually and evolving into compassionate SPARSHians. Today, we are poised to serve our patients and our community tirelessly across a spectrum of super specialties in Medical Services.

Thanks to my wonderful team of people who have worked selflessly in the making of SPARSH, the most gratifying contribution to our society. We have humbly imitated, boldly innovated and also led this space in health care over the years. I am proud of the fact that SPARSH houses a brilliant team of leadership, clinicians, nurses, technicians, paramedical and support staff who soak in our core values of FAITH, HOPE and LOVE.

Sharan Patil

Dr. Sharan Shivaraj Patil

Chairman & Chief Orthopaedic Surgeon
SPARSH Hospital

SPARSH Milestones

#1 Ortho Hospital in Karnataka for 12 years now.

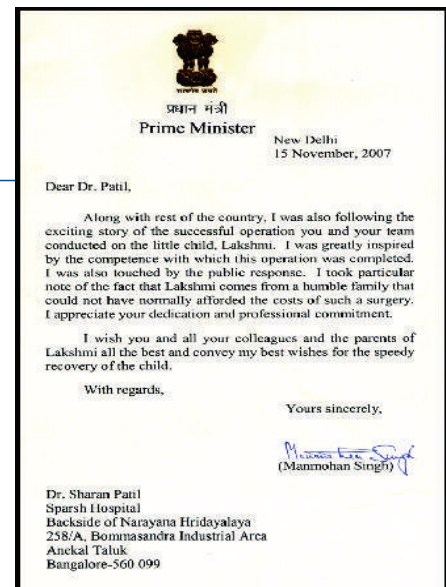

1st Hospital in Bengaluru to get **Mako by Stryker** for Robotic Knee & Hip replacement surgeries.

Tie-up with **GE Healthcare** research and development.

SPARSH **College of Nursing** was launched in 2023 with 40 students.

SPARSH **Digital Command Centre** launched to streamline and improve patient experience, and give team of doctors with real-time tracking of events for better outcomes and resource optimization.

SPARSH **Academy** is dedicated to developing knowledge and clinical skills among young professionals. DNB, FNB, CCTEM, and IDCCM are a few successful flagship programmes, with over 250 students graduating to date.

Successfully separated two year old conjoint twin Lakshmi Thatma.

The Leadership Team

The Leadership Team at SPARSH brings together decades of healthcare experience along with deep seated commitment towards the group values. As individuals they are phenomenal professionals but together they are an unmatched, agile, force delivering high powered growth. We are delighted to house this excellent team and in their own words, they are proud to represent the only healthcare brand that combines the efficiency of a corporate with the heart of a charitable institution.

Excellence in Anubhava

The 12 Principles of Anubhava

SPARSH foundation, started in the year **2007** with a heartfelt commitment, continues to make a difference in the lives of the underprivileged.

One of the most recognized surgeries conducted through the foundation was *Lakshmi Tatma* in 2007. She was a 2 year old born with eight limbs and a perished conjoined twin. The operation lasted 27 hours.

With love and prayers from across the world, Lakshmi is now healthy and living a normal life. This gave us the confidence to continue on the path of service to the underprivileged.

In addition to offering services to patients with complex medical needs who are unable to avail tertiary care, the SPARSH foundation has two flagship programmes - **Guru Namana** and **SPARSH Vachana**, under which teachers and children from underprivileged backgrounds get surgeries free of cost.

At SPARSH, we don't see this as an obligation but as an opportunity to touch the lives of the underprivileged. Our team at SPARSH works in unison, with pleasure to make every patient feel the healing touch of faith, hope and love.

SPARSH Houses EXCELLENCE

SPARSH Anubhava will shine a spotlight on a few of the state-of-the-art technologies available at our centers of excellence in each issue. As you get familiar with the stellar teams in different specialities in our units over the next few pages, we promise to bring more of the fascinating advances in each speciality at SPARSH in our future issues.

CENTER OF EXCELLENCE IN ORTHOPAEDIC

- **18 years** and counting.
- Remains the **#1** in Karnataka and in the Top 10 in India for 12 years running.
- One of the first Karnataka to move into the era of **daycare joint replacement surgeries** and direct anterior approach joint replacement surgeries.
- More than **100 joint replacement** surgeries per month with excellent functional outcomes.
- Over 50 Robotic - assisted arthroplasty for joint replacement surgeries per month, housing the **Mako Robot** offering a customized anatomical solution for each patient, resulting in higher level of accuracy, reduced pain, a speedy rehabilitation and a shortened hospital stay.
- Infection rates lower than global standards in joint replacement surgeries.

CENTER OF EXCELLENCE IN HEPATOBIILIARY SCIENCES

- Our transplant program has skilled experts performing liver transplants, both living donor as well as cadaver donor transplant, and pancreatic transplants. We have completed over 75 transplants so far, transforming lives of the recipients.
- Mr. Animesh Triwedi, a police inspector from Madhya Pradesh, had liver cirrhosis and needed a transplant. He could not find a doctor and lost hope after attempting to seek help at many hospitals in different cities.
- He reached out to our team of doctors at SPARSH Hospital in Bangalore, who reassured him that a liver transplant was not only feasible but also the solution. To his great relief, he had the transplant within a month. He recovered quickly and regained his health and strength. His remarkable recovery has allowed him to resume his duty as a police inspector and he thanks the team at SPARSH for giving him a second chance at life.

Dr. Arun K

Dr. Goutham Kumar

Dr. Mahesh Gopasetty

Dr. Ravindra Nidoni

CENTER OF EXCELLENCE IN CARDIAC SCIENCES

- Our department provides comprehensive heart care with a team of renowned cardiologists, cardiac surgeons and electrophysiologists.
- We offer catheter based treatments with short door to balloon time, perform complex minimally invasive procedures like TAVI (transcatheter aortic valve implantation), rotablation and intravascular imaging in our state of the art cath labs.
- We provide ECMO (extra-corporeal membrane oxygenation) for critically ill patients.
- Heart transplant is now available at SPARSH Hospitals. The SPARSH group's advanced heart failure clinics identify patients who have progressive disease despite optimal medical therapy and prepare them for heart transplant.
- Mr. Ganesh, a patient with advanced heart failure and other medical conditions like COPD, diabetes and kidney issues, complicating his overall prognosis. His only hope of survival was a heart transplant and recently he underwent a successful heart transplant. Our CTVS surgeon with the cardiac anesthesiology and ICU team coordinated the care and recovery of Mr. Ganesh.
- While Mr. Ganesh's family welcome the renewed lease of life, our team looks forward to offering the gift of life to more patients as the program grows.

CENTER OF EXCELLENCE IN CRITICAL CARE

- We house adult medical, cardiac, neuro and transplant ICUs as well as dedicated pediatric and neonatal ICUs.
- Our team of expert intensivists, critical care nurses and respiratory therapists provide a strong backbone to ensure the best outcomes for our critically ill patients.
- Our ICUs have the best infrastructure for critical care monitoring and are fully equipped to provide all essential life- sustaining therapies, including ECMO.
- Our Rapid Response Team (RRT) services detect unstable patients in the wards early ensuring their safety.
- As the world was grappling with the worst global healthcare crisis, the COVID - 19 pandemic, our critical care team's untiring efforts saved innumerable lives. Our ICUs provided yeoman service to the State.

CENTER OF EXCELLENCE IN HAEMATOLOGY, PAEDIATRIC ONCOLOGY AND BONE MARROW TRANSPLANT

- Dedicated wards, specialists, skilled nursing staff, clinical pharmacist, clinical fellows, blood bank and critical care services providing state-of-the-art therapy to immunocompromised patients.
- Experts in immunotherapy, Haplo-identical BMT and aspire to start CART cell therapy.
- We treated a 3 year old child from Mysore with a very aggressive cancer called Burkitt's Lymphoma, which had spread extensively (Stage IV). This cancer was tough to treat in terms of the existing complications like intestinal obstruction and toxicities of the chemotherapy. However, we got him through 6 months of chemotherapy safely with the assistance of the SPARSH Foundation. It has been 2 years since he completed his treatment and he now aims to become a doctor.

Dr. Anand Kumar K

Dr. Mahesh Rajashekaraiah

Dr. Sunil Udgire

CENTER OF EXCELLENCE IN ANAESTHESIOLOGY & PAIN MANAGEMENT

- Highly - skilled and exemplary anesthesiology team who strive to ensure that every patient has a congenial perioperative experience.
- We house a team of experts who cater to all patients be it pediatric, geriatric, pregnant women and high risk cases with multiple comorbidities after thorough evaluation of the patient pre- operatively and customizing the anesthesia plan.
- We have proficient chronic pain services aimed at ensuring appropriate diagnosis and treatment. We specialize in interventional pain procedures such as transformational injections, genicular blocks and intraarticular injections.

CENTER OF EXCELLENCE IN PHYSICAL MEDICAL & REHABILITATION

- The department of Physical Medicine and Rehabilitation is committed to the idea that **“your abilities are stronger than your disabilities”**.
- We house a multidisciplinary team of physiotherapists, occupational therapists, speech and swallow therapists, clinical psychologists and orthotics and prosthetics specialists in a dedicated wing.
- We also provide home based and online physiotherapy.
- The department places a strong emphasis on treating the whole person through a combination of therapies including investigations, medications, surgical procedures, pain interventions, physical modalities such as soft-tissue manipulation and electrical stimulation, therapeutic exercise, in the way patients move and perform daily activities, the use of adaptive equipment and assistive devices such as orthotics and prosthetic limbs, neuropsychological assessment, cognitive and behavioral management and other interactive therapy approaches.
- We are a referral centre for complex neuro rehabilitation, cardio-pulmonary rehabilitation for patients with multiple comorbidities and holistic rehabilitation for paediatric developmental delays.

Dr. Nidhi

- SPORTHO is a commitment by SPARSH to serve the requirements of the professional sporting fraternity and recreational sporting population.

SPARSH ACADEMY

The inception of SPARSH Academy was with the start of the DNB program in 2008 with the vision to provide high-quality medical education and training to aspiring healthcare professionals. We aim to develop a culture of excellence and continuous learning among students, to promote evidence-based practice and research in the healthcare field and to prepare healthcare professionals to provide competent, cutting edge and patient-centered care. The program was first started in Orthopaedics, Anesthesiology, and Plastic surgery at SPARSH HOSPITAL, Bommasandra unit, later all broad and super specialty programs were started in other units in Bangalore. Over 100 students have passed out and around 50 students are currently pursuing their courses in various specialties.

Learning and training all along, Enhancing Knowledge, Upgrading Skills, Innovating, and Exploring should become a way of life, not part of life. SPARSH Academy seeks to instill a culture of training excellence & proficiency across the board.

- Dr. Sharanu Patil Dean,
SPARSH Academy

SPARSH TECHPATH

Technology has significantly impacted the healthcare industry in recent years. From electronic medical records (EMRs), telemedicine and digital health tools like wearables and mobile apps. The benefits of these technologies include improved patient care, streamlined administrative tasks, increased efficiency and cost-effectiveness. However, challenges remain, such as ensuring patient privacy, data security, providing adequate training and support for healthcare providers. At SPARSH, we understand that continued investment in technology projects will aid in improving patient outcomes and enhance the quality of care provided.

HOW SPARSH PLANS TO LEVERAGE TECH?

Mobile App: Our Mobile App SPARSH Anubhava is designed to provide patients with easy access to our hospital services like; appointment scheduling, downloading test results, uploading reports, online payments and more.

Patient Portal App: Our Patient Portal app is a secure platform that allows patients to access their medical records, book appointments, view test results and more.

CONTINUUM OF CARE

Our **command centre** facilitates patient engagement through telephonic and message touch points. This will help to create AI-driven customized post discharge care and management plans based on patient's unique medical conditions and lifestyle.

COMMUNITY CONNECT

EMERGENCY MEDICINE

- SPARSH provides 24 hour emergency, trauma care and ambulance services.
- Our team triages, stabilizes and investigates acutely ill patients providing a gateway to specialized services.
- Regular training and community awareness programs are conducted by the department including Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS).

QUALITY CONTROL

SPARSH Hospital's Quality Assurance department collaborates with various hospital functions to ensure patient safety and quality of care. The hospital has undergone more than 20 assessments, including four during the pandemic period, and is NABH Accredited and certified. Quality assurance programs have been identified for critical areas, and more than 70 Key Performance Indicators (KPIs) have been established for various departments. These metrics measure clinical and administrative performance and are reviewed periodically during various committee meetings. Quality improvement projects have been undertaken based on the analysis of KPIs, and clinical audits are carried out by clinicians and nursing teams. To engage staff on quality and safety, World Quality Day and Patient Safety Day are celebrated through various activities, including skits and debates. The team also organized a one-day national workshop on Nursing Communication in partnership with CAHO.
